* Kodak DSII is not available in Total Blue Lenses.

Total Blue Lenses include AR and have blue light filtering properties.

** Includes KODAK Precise Digital, Precise Short Digital and Concise Digital Lenses.

Signet Armorlite Customer Service: 800-759-0075

RX PRISM IS AVAILABLE ON ALL PROGRESSIVE LENS DESIGNS.

The maximum amount of prism or combination of prism is 5.00 diopters in any direction. Diameters: The minimum uncut diameter offered is 60mm; the maximum is dependent on blank availability. Lenses are cribbed to the nearest value at least 1mm greater than the final shape in 2.5mm steps.
