RX PRISM IS AVAILABLE ON ALL PROGRESSIVE LENS DESIGNS.

The maximum amount of prism or combination of prism is 5.00 diopters in any direction. Diameter - The minimum uncut diameter offered is 60mm; the maximum is dependent on blank availability. Lenses are cribbed to the nearest value at least 1mm greater than the final shape in 2.5mm steps.

NOTE: All power ranges listed represent the max total power available including the cylinder power in minus cylinder form (-6.00 MAX CYLINDER POWER).

* Kodak DSII and Unique DS are not available in Total Blue Lenses. Total Blue Lenses include AR and have blue light filtering properties.
