KODAK LENSES. THE LEGACY OF QUALITY CONTINUES.

Kodak

Unique DS Lens

- Dual-sided progressive design includes Vision First DS™ Technology on both surfaces of the lens
- Six corridor lengths from 13mm to 18mm
- Optimized reading area
- i-Sync™ Technology cancels oblique errors for improved visual quality and flatter lens profiles

Kodak

Unique Lens

- Digital back-surface design created with sophisticated geometries and state-of-the-art technology is closer to the eye
- Six corridor lengths to cover a wide range of prescriptions and frame shapes
- Fitting heights as low as 13mm
- Widest range of lens material options

Kodak

Digital Lenses

KODAK Precise, Precise Short, & Concise Digital Lenses

- Custom, high-precision, three-dimensional back-surface combined with front-surface design
- More consistent optical performance over the range of prescription powers
- Wider viewing areas for hyperopes and improved distance areas for myopes

Kodak

Precise PB Lens

Kodak

Precise Short PB Lens

KODAK Precise PB Lenses

All the features of the award-winning KODAK Precise Lens design with the added accuracy of backside digital application

Kodak Kodak Kodak Precise Lens Precise Short Lens Concise Lens

- Front-surface design using digitally-surfaced molds
- Award-winning lens design that delivers exceptional optical performance
- 3 corridor lengths to accommodate the patient's frame choice

PREMIUM ANTI-REFLECTIVE OPTIONS

Kodak

Clean'N'Clear Lens

Premium AR coating with all the features and benefits of KODAK ClearAR™ Lens, plus a slicker hydrophobic coating. Also includes anti-static properties to resist clinging dust and is guaranteed for the life of the prescription.

Kodak

ClearAR Lens

Award-winning AR coating is easy-to-clean, resists oily smudges and dirt and is highly durable to stand up over the life of the prescription.

Also available with Crizal® No-Glare Technology

NOTE: Prescribed prism available on all designs.

Available with Anti-Fatigue Technology

QUALITY, PERFORMANCE, VALUE

DIRECTEK™

DirecTek & DirecTek Short Progressives

- Full backside progressive design digitally created for more accurate optics
- Soft design for easy adaptation
- Two corridor lengths to suit a wide range of frame sizes
- Materials offer a full range of indices in clear, photochromic and polarized

Navigator

Navigator & Navigator Short Progressives

- Front surface progressive with digitally created molds
- Soft design progressive in two corridor lengths for a wide frame selection

BluCrystal™

- Easy to clean
- Durable
- Appealing blue hue
- One year guarantee

PREMIUM ANTI-REFLECTIVE OPTIONS

Kodak Clean'N'Clear Anti-Reflective Lens

This premium AR coating contains all the features and benefits of KODAK CleAR™ Lens, plus has a slick hydrophobic coating and contains anti-static properties to resist clinging dust. Guaranteed for the life of the prescription.

Kodak CleAR Anti-Reflective Lens

Award-winning AR coating that is easy-to-clean, resists oily smudges and dirt and is highly durable to stand up over the life of the prescription.
